Experience

The Mitra Group
Founder & CEO
1995 - Present (31 years)
Austin, TX

In 1995, I established my own consultancy, focused on the provision of executive, organizational and personal talent development services for diverse clients in businesses ranging from Fortune 50 companies to start ups in a wide range of industry sectors. To date I have developed solutions for more than 1200 clients, including coaching, training and change management interventions. My solutions are designed based on my client's needs and are aimed directly at facilitating the desired levels of both individual and organizational change.

My coaching services include executive and team coaching for business and corporate leaders, transition coaching for those who leave employment to launch entrepreneurial dreams and personal transformation coaching. For more information, visit: www.themitragroup.com.

JMJ Associates
18 years
Senior Consultant
2008 - Present (18 years)
Austin, TX

As an Associate Senior Consultant for one of the world's leading consultancy firms, I hold responsibility for managing the delivery of transformational

programs for global organizations in the energy, manufacturing, construction and pharmaceutical industries.

During my tenure, I have led the successful implementation of multiple safety culture transformation programs with budgets up to \$5M in organizations of up to 13,000 staff and over \$40B giga-projects. I utilize my extensive agile change management and talent development expertise in the development of effective programs that deliver the required organizational change and cultural transformation. This is achieved through stringent research and assessment of diverse factors, followed by the creation of best practice strategies resulting in higher levels of productivity, safety, morale and performance.

My role requires continuous engagement and partnering with stakeholders across the board and establishment of relationships that facilitate effective collaboration. I also innovate client-focused product enhancements to drive successful engagement outcomes via rapid prototyping.

Global Knowledge & Training Development Leader

June 2013 - December 2014 (1 year 7 months)

Austin, TX

In 2013, I was charged with leading the high-performance projects practice area. My role encompassed the development of high performance strategies and products that enhance our clients' organizational performance in project-based contexts. I collaborated with multiple stakeholders, often virtually due to multi-geographical locations, in the development of best-practice programs and materials that drive our clients' cultural transformation.

My role quickly expanded to include leading the Assessments practice area. I delivered multiple organizational successes including the introduction of an online Safety Leadership Assessment tool which resulted in an 80% reduction in administration and analysis time, along with enhanced coaching outcomes.

ExxonMobil

20 years

HR Global Geoscience Training & Development Leader

1994 - 1998 (4 years)

Exxon Exploration Company | Houston, TX

As Training and Development Leader, I was charged with the implementation of multiple global training and talent management programs for our 1000+

geoscientists across the globe. I used my extensive HR talent management, training and coaching expertise to support leaders and provide insight into best practice change and retention strategies.

I directed a team of four staff members, focused on training administration for more than 1,000 onsite staff. I also led and implemented multiple successful initiatives, including a new hire development program and a mid-career development program to address strategic skills shortages.

Various Geoscientist Roles

1978 - 1994 (16 years)

Exxon Company, USA | Houston, TX

I joined Exxon as Associate Exploration Geologist. From there I progressed through the organization and held various titles including Drilling & Evaluation Geologist, Senior Production Geologist and Major Fields Coordinator. I soon discovered my passion for training and talent development and moved into the talent development space in the capacity of Production Geoscience Training Coordinator.
